Federal Commiunication Commission
Office of the Secretary
CC Docket Nos. 96-45 and 97-21

Re: Letter of Appeal from the San Bernardino County Library

On October 17, 2002, the Schools and Libraries Division of the USAC denied an appeal of funding for 471 Application Number 284472, Funding Request Number 731218. USAC stated that the service provider for the services provided was not a common carrier and subsequently denied the funding.

Upon further investigation of the service provider (SPIN 143014259)The County of San Bernardino Information Services Department, it was determined that the service provider had not sent in their Certification of Common Carrier for year 5. This was due to miscommunication and personnel change. Once this error was discovered the service provider sent in the forms to be recertified.

As a result the San Bernardino County Library believes it is now eligible to receive year 5 funding for 471 Application Number 284472.

The San Bernardino County Library is requesting the FCC review the County's claim for year 5 funding. If the FCC has any questions please contact:
